BIOTEK
MILANO

UNIVERSAL CARTRIDGES

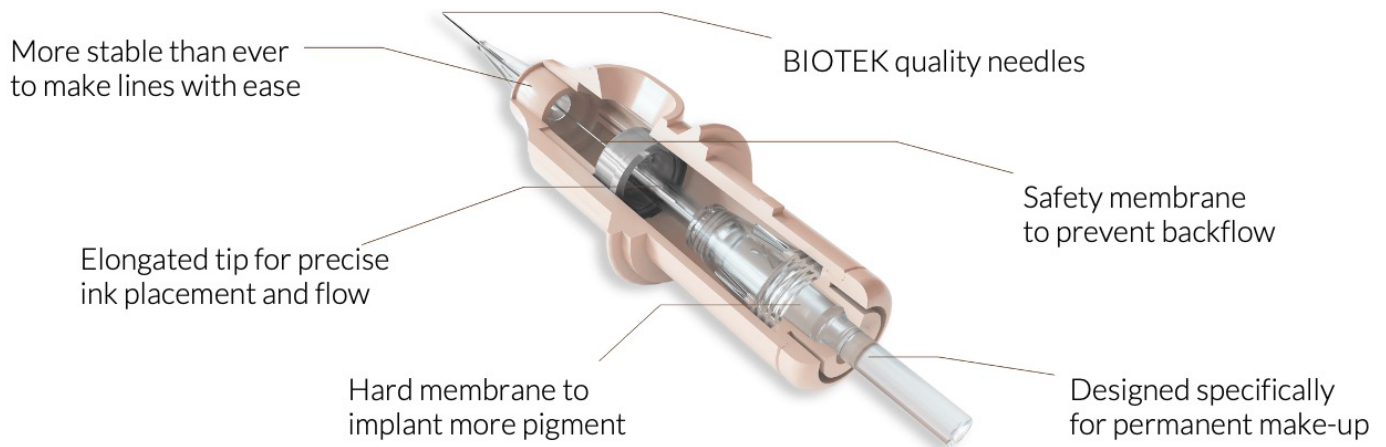

This line of cartridges is designed to allow you to perform high precision work.
BIOTEK needles are different from all those you can find on the market:

Biotech cartridges appear more solid, made with high quality materials. The needle is perfectly straight, with a smoother taper and a super sharpened point.

Competitor cartridges appear cheaper and made with poor materials. The needle looks rough, with scratches and indents, also the point seems more rounded.

1pt classic Ø 0,35 Short Taper

1pt HD Ø 0,25 Long Taper

1pt Ø 0,30 Tube Long Taper
